PROFILE

I'm Banobe Pascal a dedicated and efficient full stack developer with experience in JavaScript, TypeScript, Node.js, Express.js, React.js, React-Redux, MobX and SQL/NoSQL. I am very passionate about problem-solving, satisfying the users with the best experience as well as the best delivery service. I possess strong attention to detail, well-developed time management skills, and the ability to complete all projects within schedule and in a timely manner.

OBJECTIVE

To be able use my expert problem solving and communication skills to work with teams and companies developing products and tools people love to use.

KEY SKILLS AND COMPETENCES

- Experience of working through all stages of a development project.
- Understanding of Object Oriented Programming.
- Ability to manage own projects and portfolio.
- Good administration and organizational skills.
- A strong understanding of professional software development practices.
- Able to communicate complex issues to a large range of stakeholders at all levels.
- Have exposure to requirements definition and concept of workflow / reporting.
- Integration of third party APIs to front-end and back-end.
- Knowledge of differing methodologies i.e. Agile and Scrum.
- Familiarity with CI/CD technologies and workflow (TravisCI, Code Climate).
- Knowledge of unit and integration testing with Mocha / Chai and Jest.
- Experience in pair programming and team work at all levels.

EDUCATION

Higher diploma in Software Engineering - June 2018 - present.
(Aptech Computer Education, Uganda)

Build web apps with ReactJS
(OpenClassrooms)

Learn Programming With JavaScript
(OpenClassrooms)

WORK EXPERIENCE

Freelance software developer - Jan 2020 - Present.

Andela, Kigali (Bootcamp) - Sept 2019 - Oct 2019.

RECENT WORK AND PROJECTS

MANSA: <https://github.com/banobepascal/Mansa-Frontend>

An online ecommerce web app for shopping a variety of products and services.

- Worked together with the fellow team of Mansa to provide an MVP.
- Pair programmed with a fellow senior developer to bring up the Mansa product.
- Implemented Mobx and Concept API to handle state management of the app.
- Implemented responsive design of the app for user experience on small screens.
- Utilized: JavaScript, TypeScript, React, MobX, React-router, Firebase, Vercel.

CROWN TRENDZZ: <https://crown-trendzz.herokuapp.com>

An online fashion e-commerce platform.

- Integrated Stripe API for processing credit card payments
- Implemented Firebase for authentication and firestore as a database.
- Implemented best coding practices to improve project effectiveness.
- Utilized: JavaScript, React, Redux, React-router, Firebase, StripeAPI

TEAMWORK: <https://github.com/banobepascal/teamwork>

An internal social network for organizations' employees. A project part of the Andela bootcamp training program.

- Designed front-end with HTML/CSS, JavaScript and fontawesome.
- Used Mocha and Chai for unit and integration testing of API.
- Applied DevOps practices i.e. CI/CD with TravisCI and Code Climate.
- Utilized: JavaScript, Nodejs, Express, PostgresQL, Mocha / Chai, TravisCI, Heroku.
