

Banobe Pascal

SENIOR FRONTEND ENGINEER

Phone +256 706 537 427

E-mail banobepascal@gmail.com

I am a Senior Frontend Engineer with a passion for creating successful websites and web applications that meet customer needs. I am proficient in JavaScript, TypeScript, Reactjs, Redux, Mobx, HTML/CSS and have experience in designing and developing E-commerce, FinTech, and money transfer apps and websites. I am a team player with an analytical approach to solving problems and delivering quality work in Agile environments. I am committed to continuous learning and professional growth, and eager to bring my skills and expertise to a dynamic and innovative organization.

Skills

JavaScript, TypeScript, React.js, Node.js, Redux, MobX, Express, SQL, NoSQL, Git, Github, CI/CD, Bash, Shell CLI

Work History

2022-10 - Current

Senior Software Engineer

Uncover Africa , Nairobi

- Utilized React to build and design frontend of Uncover staff and hotel web application plus applying latest features and best practices.
- Designed and implemented scalable and performant web application, leveraging the latest features and technologies, and integrating with Firebase and Serverless functions.
- Improved performance of both Staff xtranet and Hotel xtranet by implementing Webpack, resulting in 30% decrease in page load times and improved user experience.
- Led cross-functional teams to successfully deliver project milestones on time and within budget, by effectively communicating with stakeholders, managing resources, and implementing best practices for Agile development.

2018-08 - Current

Freelance software developer

Self employed

- Demonstrated ability to develop high-quality, scalable, and responsive web applications using JavaScript, HTML, React and NodeJs.
- Worked with clients to understand their requirements and delivered projects on time, within budget, and to the highest standards.
- Completed a diverse range of freelance software development projects, including e-commerce websites, mobile applications, and web-based SaaS platforms.

- Demonstrated the ability to work effectively with clients from diverse industries and backgrounds, including startups, SMBs, and large enterprises.
- Built a strong reputation as a reliable and talented freelance software developer, with a growing portfolio of satisfied clients and positive feedback from past projects.

2021-12 - 2022-11

Senior Front End Developer

LENDSMART, New york

- Lendsmart's end-to-end solution automates & digitizes lending and home buying operations for banks, credit unions, and non-bank lenders
- Worked closely with UI/UX designers and used React, MaterialUi to implement new designs and ensure a seamless user experience.
- Led the successful onboarding of Allies for Community Business onto the Lendsmart platform, streamlining workflows and accelerating the onboarding of additional clients.
- Integrated third-party APIs e.g. Transunion for collecting credit reports, Finicity for Bank statements, Argyle for Paystub documents and Railz for business accounting and financial data from Quickbooks.
- Utilized Figma and Material UI to create visually appealing and user-friendly interfaces, resulting in increased user engagement and satisfaction.

2021-07 - 2021-10

Junior Frontend (React) Developer

Allerin, CBD Belapu

- Worked with UI/UX to re-designed entire frontend of SuperSwift from desktop to mobile.
- Reviewed code and conducted tests for new features that increased efficiency in product delivery.
- Validated almost 100% user input before submission to back-end and admin control portal.
- Identified issues, analyzed information and provided solutions to problems.
- Utilized: JavaScript, TypeScript, React, Redux, Axios, Cypress.
