SENIOR FRONTEND ENGINEER

Summary

Experienced Senior Frontend Engineer with six years of proficiency in React, JavaScript, TypeScript, and performance-focused web development. Seeking a pivotal role within a web application team to lead product-centric projects, leveraging React, Redux, and TypeScript expertise. Dedicated to driving seamless user interactions, enhancing performance, and contributing insights for scalable front-end architecture. Committed to collaborating with User Experience specialists to ensure product excellence and meet evolving user needs. Eager to contribute clear communication, innovative solutions, and a strong work ethic to achieve collective success within an autonomous and dynamic team environment.

Work History

10/2022 - 03/2024

Senior Software Engineer

Uncover Africa, Nairobi

- **Enhancing Responsive Web Apps:** Strategized and implemented enhancements for responsive web applications, focusing on real-time content updates, offline content, and UI/architecture scaling for performance using React, TypeScript, and Redux.
- **End-to-End Ownership:** Led the development cycle from initial design to deployment, maintaining robust test automation, and monitoring performance, ensuring holistic ownership and high-quality deliverables.
- **Architectural Insights & Scalability:** Gathered insights and applied robust design principles to address customer needs while optimizing solutions for scalability and performance.

12/2021 - 11/2022

Senior Frontend Engineer

Attune, New York, Remote

- **UI/UX Collaboration:** Collaborated closely with UI/UX designers, implementing visually captivating designs using React and Material UI. Acted as a mentor, advocating best practices and craftsmanship within the team to ensure top-quality solutions.
- **Client Onboarding & API Integration:** Spearheaded the successful onboarding of Allies for Community Business onto the Attune platform. Integrated various third-party APIs (Transunion, Finicity, Argyle, Railz) to streamline financial data processing.
- **Design and Development:** Developed intuitive interfaces using Figma and Material UI, significantly improving user engagement and satisfaction metrics.
- **Scalable Architecture:** Played a key role in ensuring the scalability and elegant architecture of the LendSmart platform, emphasizing code quality, performance improvements, and mentorship.

06/2021 - 11/2021

Junior Frontend (React) Developer

Allerin, CBD Belapu, Remote

- **Frontend Overhaul:** Orchestrated a comprehensive overhaul of the SuperSwift frontend, ensuring compatibility across desktop and mobile devices, and enhancing user experience and engagement.
- **Quality Assurance:** Implemented automated testing suites and rigorous testing measures to ensure high-quality deliverables, optimizing for speed and reliability.
- **Performance Optimization & Cross-Device Compatibility:** Spearheaded the overhaul of the SuperSwift frontend, guaranteeing cross-device compatibility, high-performance user experiences, and scalability using React and Redux.
- **Data Validation:** Implemented stringent data validation processes, ensuring nearly 100% accuracy of user inputs before submission to backend systems and admin control portals.

06/2018 - PRESENT

Freelance Web developer - Remote

- **Client Collaboration & Tailored Solutions:** Collaborated closely with clients across diverse industries, delivering high-quality, scalable web applications tailored to specific client needs using React, JavaScript, and TypeScript.
- **Technology Expertise & Quality Delivery:** Showcased proficiency in React, JavaScript, and TypeScript, ensuring adherence to industry best practices and rigorous testing for bug-free, reliable software solutions.
- **Effective Project Management:** Managed projects efficiently, ensuring on-time delivery and adherence to budget constraints while maintaining high standards of coding practices.

Education

JUNE 2018 - DECEMBER 2022
Higher Diploma in Software Engineering: Software Engineering
Aptech Computer Education - Kampala, Uganda

JULY 2021 - SEPTEMBER 2021
Coding Bootcamp: Software Engineering
Andela - Kigali

Skills

Frontend Technologies:, JavaScript, TypeScript, React.js, Next.js, Redux, HTML/CSS, Material UI
Backend Technologies: Node.js, Express.js, MongoDB, Redis, Linux, RESTFul
Performance Optimization: Webpack, Code Optimization, Scalable Architecture
Testing: Jest, Cypress, Mocha, Chai
Other Skills: Git, GitHub, Agile Methodologies,
