PROFILE

I'm Banobe Pascal a dedicated and efficient frontend developer with experience in JavaScript, TypeScript, React.js, React-Redux, MobX, Node.js, Express.js and SQL/NoSQL. I am very passionate about problem-solving, satisfying the users with the best experience as well as the best delivery service. I possess strong attention to detail, well-developed time management skills, and the ability to complete all projects within schedule and in a timely manner.

OBJECTIVE

To be able to use my expert problem-solving and communication skills to work with teams and companies developing products and tools people love to use.

KEY SKILLS AND COMPETENCES

- Experience in working through all stages of a development project.
- Understanding of Object-Oriented Programming.
- Ability to manage own projects and portfolios.
- Good administration and organizational skills.
- A strong understanding of professional software development practices.
- Able to communicate complex issues to a large range of stakeholders at all levels.
- Have exposure to requirements definition and concept of workflow/reporting.
- Integration of third-party APIs to front-end and back-end.
- Knowledge of differing methodologies i.e. Agile and Scrum.
- Familiarity with CI/CD technologies and workflow (TravisCI, Code Climate).
- Knowledge of unit and integration testing with Mocha / Chai and Jest.
- Experience in pair programming and teamwork at all levels.
