---

## PERSONAL SUMMARY
A talented software developer with strong work ethics and 1.5+ years hands on experience. I have the ability to think through a problem coupled with the confidence to make ideas heard.

I am currently looking for a software developer opportunity that will allow me to work alongside an expert team of developers. Thereby solving real world problems and creating tools people love to use.

## EDUCATION BACKGROUND
Build web apps with ReactJs
*OpenClassrooms March 2020*

Full-stack development with (HTML/CSS, JavaScript, Node.js)
*Andela Boot-camp (Kigali, Rwanda) Sept 2019 – Oct 2019*

Higher Diploma in Software Engineering
*Aptech Computer Education June 2018 – still in progress*

A Levels in Mathematics, Geography, Economics and History
*Munta Royal College 2016 – 2018*

## KEY SKILLS AND COMPETENCES
- Experience of working through all stages of a development project.
- Understanding of Object Oriented Programming.
- Ability to manage own projects and portfolio.
- Good administration and organizational skills.
- A strong understanding of professional software development practices.
- Able to communicate complex issues to a large range of stakeholders at all levels.
- Have exposure to requirements definition and concept of workflow / reporting.
- Integration of third party APIs to front-end and back-end.
- Knowledge of differing methodologies i.e. Agile and Scrum.
- Familiarity with CI/CD technologies and workflow (TravisCI, Code Climate).
- Knowledge of unit and integration testing with Mocha / Chai and Jest.

## RECENT PROJECTS
**Personal Portfolio :** https://devpascal.netlify.app (for additional information and projects)

**Project – E LEARNER** (https://e-learner-live.herokuapp.com/)
An online learning platform for students.
- Integrated client side routing with React-router and front-end using React.js
- Implemented Firebase for authentication and firestorm as a database.
- Implemented Github Signup and Signin into platform.
- Utilized: JavaScript, React, Redux, React-router, Firebase, Heroku

**Project – CROWN TRENDZZ** (https://crown-trendzz.herokuapp.com)
An online fashion e-commerce platform.
- Integrated Stripe API for processing credit card payments
- Implemented Firebase for authentication and firestorm as a database.
- Implemented best coding practices to improve project effectiveness.
- Utilized: JavaScript, React, Redux, React-router, Firebase, StripeAPI

**Project – FAST FOOD (API)** (https://github.com/banobepascal/fast-food)
A food delivery service app for a restaurant.
- Implemented JavaScript ES6 features and the best OOP practices.
- Implemented admin to add, edit or delete items on the menu.
- Implemented best coding practices to improve project effectiveness.
- Utilized: JavaScript, Nodejs, Express, MongoDB, Mongoose.

**Project – TEAMWORK (** https://github.com/banobepascal/teamwork)
An internal social network for organizations' employees
- Designed front-end with HTML/CSS, JavaScript and fontawesome.
- Used Mocha and Chai for unit and integration testing of API.
- Applied DevOps practices i.e. CI/CD with TravisCI and Code Climate.
- Utilized: JavaScript, Nodejs, Express, PostgresSQL, Mocha / Chai, TravisCI, Heroku.
